

BIOPARC CAFE

FUENGIROLA

MENU

ENG

By visiting Bioparc you have entered a world where art and conservation go hand in hand, to help you understand the beauty of wildlife.

By instinctively following your senses and immersing yourself in nature, its animals and plants, we feel it's the most positive way to promote conservation. Allow yourself to be carried away by your senses. Appreciate the artistry of an environment that allows you to be transported to distant jungles and hear the voices of hidden animals.

Discover fascinating creatures hidden in the dense vegetation. Forget the outside world, breathe, give in to your surroundings.

When you discover the aim of the park, and appreciate the art of nature and the need to conserve it, visit the Bioparc Café. Enjoy a well deserved break, surrounded by a jungle that you will, from now on, want to conserve.

As of today you are part of the Bioparc family.
